RMGO Ousts Gun-Grabber Hudak

Rocky Mountain Gun Owners (RMGO) is proud to claim a stake in the victory of gun-grabbing Colorado State Senator Evie Hudak resigning on Wednesday morning.

RMGO has been an integral force in the recall efforts, mobilizing and informing the gun owners and Second Amendment supporters, throughout the great state of Colorado, of the unconstitutional laws Hudak passed against the Second Amendment.

RMGO will continue to provide the firepower in defeating threats to Coloradans' Second Amendment rights. Hudak's resignation is just a stepping stone to defeating gun-grabbers in the Legislature and restoring Second Amendment rights.

"This historic event should put every gun-grabber in the Capitol on notice for the 2014 Elections;" states Dudley Brown, Executive Director of Rocky Mountain Gun Owners.

"Coloradans have fought back against an infringement to their Second Amendment rights and have taken back their voice from a senator who disregarded the wishes of her constituents and their personal liberty."

Rocky Mountain Gun Owners is Colorado's largest state based gun lobby, and is the only no compromise, gun rights group committed solely to defending Coloradans' Second Amendment rights.
